People & Development Team

Conscious Group

Amsterdam, Netherlands

Application for IT Intern Position

Dear People & Development Team,

I am excited to apply for the IT Intern position at Conscious Group starting in July 2025. As a final-year undergraduate in Information Technology at the Sri Lanka Institute of Information Technology (SLIIT), I am eager to bring my technical skills, enthusiasm, and proactive attitude to support the IT operations across your hotels and restaurants.

Through my academic projects and hands-on experience, I have gained strong knowledge in troubleshooting hardware and software issues, managing user accounts, and supporting IT operations in fast-paced environments. I am comfortable preparing and configuring laptops, providing first- and second-line support, and resolving issues with devices such as printers, workstations, and telephones. In addition, I have experience with **Google Workspace, Windows environments, and IT helpdesk support**, which align well with the requirements of this role.

What excites me most about Conscious Group is your combination of sustainability, hospitality, and innovation. I admire your commitment to creating eco-friendly guest experiences, and I am motivated by the opportunity to contribute to an organization that values both people and the planet. I am confident that my enthusiasm for IT, combined with strong communication skills and an independent, hands-on work style, will allow me to add value to your team.

I would be delighted to support your IT operations while also learning and growing in such a dynamic environment. Thank you for considering my application. I look forward to the opportunity to contribute to Conscious Group's mission and to gain valuable professional experience during my internship.

Warm regards,

Sabri Mazahim
